

HEALTH

Venn Strategies' Health Team helps clients navigate complex health policy and political landscapes through advocacy, coalition management, stakeholder engagement, and policy strategy.

Our work spans access to care, chronic disease prevention and management, behavioral health, health equity, reimbursement and payment policy, and regulatory reform. We partner with patient groups, providers, associations, and industry leaders to advance coordinated policy and advocacy campaigns.

> WHAT SETS US APART

HEALTH POLICY EXPERTISE

We understand health policy and the political dynamics that shape it.

STRATEGIC TRANSLATION

We turn complex policy issues into clear strategies and compelling narratives.

INTEGRATED CAMPAIGN EXECUTION

We connect advocacy, regulatory strategy, coalitions, communications, and grassroots engagement.
